

Sailfish Point Golf Club Recognized for Environmental Excellence

Sailfish Point Golf Club has achieved designation as a "Certified Audubon Cooperative Sanctuary" through the Audubon Cooperative Sanctuary Program for Golf Courses. Scott MacPhee, Director of Golf Course Operations, led the effort to obtain sanctuary designation on the property and is being recognized for Environmental Stewardship by Audubon International. Sailfish Point Golf Club, Inc. is one of 113 golf courses in Florida and 898 in the world to hold the title of Audubon Cooperative Sanctuary.

To reach certification, a course must demonstrate that they are maintaining a high degree of environmental quality in a number of areas. These categories include: Environmental Planning, Wildlife & Habitat Management, Outreach and Education, Chemical Use Reduction and Safety, Water Conservation, and Water Quality Management.

The Audubon Cooperative Sanctuary Program for Golf Courses, endorsed by the United States Golf Association, provides information and guidance to help golf courses preserve and enhance wildlife habitat and protect natural resources. Golf courses from the United States, Africa, Australia, Canada, Central America, Europe, New Zealand, and Southeast Asia have achieved certification in the program.
